Medical Astrology Wikipedia

Medical astrology (traditionally known as iatromathematics) is an ancient medical system that associates various parts of the body, diseases, and drugs as under the influence of the sun, moon, and planets, along with the twelve astrological signs. Each of the astrological signs (along with the sun, moon, and planets) is associated with different parts of the human body.

The Message Of The Stars, By Max Heindel Rosicrucian

CHAPTER XXVII TRANSITS The progressed positions of planets are the principal significators of events, but the transitory positions of the planets in space at the actual time of events strengthen or weaken effects of aspects in the progressed horoscope, according to whether they are akin in nature or not. The New Moons are particularly potent. These so-called transits are seen in the ephemeris ...
